The following sketch of the celebrated action been furnished by a correspondent of the New York Evening Post to that paper :

Having been an American prisoner on board the Gavriere, during the famous battle between that frigate and the United States frigate Consti-

Having been an American prisoner on board the Georgiere, during the famous battle between that fingate and the United States frigate Constitution, I propose giving you an account of that important action, which took place in June, 1812. About two weeks previous to the engagement, I left Boston in an American ship, which was captured by the Georgiere some five days before she fell in with the Constitution.

It was about 10 o'clock in the morning when the Constitution was discovered. The Guerriere hove to, to enable her to come up. As the Constitution neared us, Capt. Dacres handed me his glass and asked me what I took her to be. My reply was—'She looks like a frigate.' Very soon she came within reach of the long guns of the Guerrice, which were fired, but with no effect, as the sea ran high. The Constitution made no reply, but, as I saw, was maneuvering for a position—during which Capt. Dacres said to me—'Do you think she is going to strike without firing.'?' I replied, 'I think not, sir.'

At this moment, seeing a severe contest was about commencing, in which I could take no part, being only a prisoner, I raised my last to Captain Dacres, and said to him, 'With your permission, sir, I will go below, as I can take no part.' 'Oh, certainly,' said he 'and you had better go into the cockpit, and should any of our men chance to get wounded, I shall feel obliged if you will assist the surgeons in dressing them.' 'Certainly, sir,' sard I, and then descended into the cockpit.—There were the surgeons, and surgeons' mates, and attendants, sitting around a long table covered with instruments and all necessaries for dressing the wounded, as still as a funeral. Within one moment after my foot left the lower round of the ladder, the Constitution gave that double broadside, which threw all in the cockpit were in a heap on the opposite side of the ship.

"For a moment it appeared as if heaven and earth had struck together; a more terrific shock cannot be imagined. Before those in the cockpit was filled, with bardly room for th

Who can imagine the joy I experienced in finding massic again under American colors, or the pride I felt at finding, from Commodore Hull down to the most hamble man on board, an entire absence of everything like a boastful, or even a triumphant lock, at their wonderful victory. Captain there here his unterport till we arrived in limit, but the other officers employed clerks to the trainipuant toos, at their wonderful victory. Cap-tain Dacres kept his state-room till we arrived in port. About two hundred of his men were nec-essarily ironed, as the ship was crowded. Charles Morris, (now Commodore,) the first officer of the Morris, (now Commodore,) the first officer of the Constitution, had a ball through his body, and for several days his recovery was doubtful; during which he sent for me to come to his room, and I will remember, his perfect unconcern for himself, although the surgeon had apprized him of his danger. Every courtest and kindness was, by Capt. Hall and his officers, extended to their prisoners. On Sunday, about noon, the Constitution arrived in Boston Harbor. I was sent on shore in the boat. The harbor between the ship and wharves was now covered with boats to learn the news. To the first boat that we neared, we halled: "The Constitution has captured the Guerrinews. To the first boat that we neared, we hailed: "The Constitution has captured the Guerriere." Instantly the two men in the boat took of
their hats and violently struck them on the side
of the boat, and rising, gave cheer upon cheer.—
They hailed other boats, and thus the nir was
rent with cheers, and the victory passed along
until it reached the wharf, and then spread like
wildfers all ever the city and country.

It is now nearly forty years since the transac-tion of that day proved to the Americans that British frigates were not invincible. Who can reactable that day without feeling a glow of pride, that so early in the war, and in a manner

pride, that so early in the war, and in a manner so unpretending, a victory so perfect should have been achieved! I write this statement without notes, but believe it to be, in the main, accurate.

In justice to Captain Dacres, I add, that there was none of the boasting on his part, before the action, which has to him been attributed, as he did not know the ship till Midshipman Read announced her name and commander.

OFFICIAL PAPER OF THE CITY.

From Madison. EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Manison, February 11th, 1852. I succeeded in getting off a report by telegraph, of the doings of the Legislature, on Monday, for the first time in ten days, but last night the line was down again. It is a remarkable institution, is that telegraph line; sometimes at work when it is not needed, and almost never at work when is needed; in the which complimentary remark I do not intend to include my friends, the operators, at either end, they being always ready. t makes a good deal of difference whether the days proceedings are sent by telegraph and put in type, and in mail the same evening, or wher or they are forwarded by mail from here. As the weather has changed to cold again, there is some hope of better work. During wet weather the

line can do nothing.

A resolution fixing the time for adjournment a the 10th of March, was introduced in Senate yes-terday morning by Mr. Palmer. Our Senator Huebschmann, was all at once seized with an unual attack of consideration for the "other pary" in the "other House," and thought that the apposition for adjournment should come from between the ships Constitution and Guerriere has that quarter. The Schator seems somewhat better this morning, and it is hoped that no serious onsequences will follow the unfortunate attack It is not likely that any extraordinary quantity of Buncombe will be expended just now in disusing the time of adjournment. Though a great deal of work has been done thus far, there are -everal important bills yet to be considered, and the members are doubtless ready to attend to

them as they come up. The Senate laid upon the table the resolution o instruction to the joint apportionment committee us to the ratio of representation. I don't know what foundation there is for the report that a majority of the Senate is opposed to any apportionment, but there is such a report. The constitu tional question, doubtless, stands in the way of some members in both Houses; and, besides that since the House has decided that the countie with less than the ratio proposed shall not have representatives, the members from those parts of the State will not be disposed to favor an appertionment at all. Instanch, too, as the proposed atio will scarcely change the numbers of either House, very little would be gained by a new ap-

A bill introduced by Mr. Mott providing, amon other things, that newspapers not to exceed the cost of three dailies shall be furnished to members of future Legislatures, was briefly discussed this morning in committee of the whole, and reported back with a recommendation that it do not pass; the general impression being that it would not answer the purpose of saving time, since the first move of the next Legislature would be to re-peal the bill, and re-open the vexed question. The bill was finally recommitted.

The bill from the Committee on Mining and

Smelting, providing for the employment of a State Geologist coming up, it was debated at considerable length, Mr. Earnest taking the lead in favor. Various amendments were passed, and the bill was finally laid upon the table for future consideration. The cost of the enterprise staggers many of the members, and in the present state of the Treasury, this is a matter which deserves the utmost consideration. Still, it is not to be doubted that the services of a competent geologist for a couple of years would result in bringing to light so much of the bidden wealth, and developing the sources of the State to such an extent as would amply repay the outlay. The present may not be, perhaps, the best time for going into such an ex-But it should be recollected that the suggestion

na to the appointment of a State Geologist comes from the Committee, and not from the Gove His suggestion was a broad one, covering the whole State; being that Congress be memorialized to continue and complete all the surveys in the State, and thus to bring the lands into market, and, in connection with the topogrophica survey, one be made by a duly authorized officer, of the geological characteristics of the Statenatter of quite as much importance to the U.S since it would greatly advance the sale of the that number of tickets should be sold. The enands, as to the State of Wisconsin. If it was hought proper, by the U.S. Government, to authorize the hasty, though very satisfactory survey of one or two counties of this State, at a forme period, there can be little doubt that still furthe surveys would readily be granted by the same authority, and that it would result beneficially now as then. I am not without hope that the precise uggestion of the Governor will be acted upon and a memorial to Congress for the purpose indi cated above, be presented, and pass without seri-

ous opposition. In the afternoon, sundry bills to pay clerks i the different State offices coming up, Mr. Donaldon, Chairman of the committee on claims, in whose absence these bills were reported, objected to their passage, and they were referred back to he committee for examination. The clerk-hire in the offices of the Secretary of State and Treasurer may, perhaps, not be too high, but they are certainly far beyond the amounts appropriated by the last Legislature for these identical servires. That body allowed the officers to engage clerks, to be paid not over \$300 in each office.-The Superintendent of Schools kept within the

amount of \$600 to \$1000 each.

The tax laws are likely to receive considerable addication, as appears in the course of discusions upon various bills. It is to be heped that some of these days, laws will be devised which vill make taxation equal and just, and that the millenial day when Buncombe speeches shall cease for the benefit of the poor, who me twice s ready to pay their proportion of taxes as are hose who are more favored by future, will soon urive. It will be a " good time," certainly, A bill appropriating \$3000 annually to the State and County Agricultural Societies, the first to have \$800, and the balance to be divided mong the latter in proportion to the census, was read in committee this afternoon. The subject recals to mind the fact that the Governor's Message recommended a memorial to Congress for an Agricultural Bureau, and that this very important matter has not yet been neted upon. likely that the bill, above referred to, will pass

We have a lecture this evening in the Hall, from Mr. F. J. Dunn on "illegal banking." These spasmedic efforts of the anti-bank men (I under stand Mr. Dunn is "one of 'em'") are very diverting, and doubtless necessary, since unless vent is given to their deep sorrow and indignation, they might explode some cold morning, and the State would thus lose the services of citizens,"quite useful in their several stations in life.

A Mr. Hazelton, from Richland Co. an indefatigable lobby member, peculiarly marked in person, has been very faithfully engaged in relating his woes and wishes to all the members. Having said about all that imagination can conceive, or human nature endure, upon the subject of the location of his county seat, the Chief Clerk this afternoon, immediately after the adjournment of the House, called to order, and requested in behalf of some of the lobby delegation, "that Mr. Hazelton ave leave of absence until after the settlement of the Richland Co. seat question." dence:

The Assembly is in the hands of the whigs, and to a member of that party, Mr. Conger, belongs the honor of introducing the chart resolution; and to another whig. Col. Botkin, belongs the honor of moving the vote by which the Sergeant-an-Arms receives \$4 per day. The whigs have no desire to economize the expenses of the State, and if the present session is not noted for its profligacy, it will be because there is a check in the Democratic Senate.

Mark how a plain tale shall put these fiction lown. The motion to fix the pay of the Sergeantat-Arms at \$4 a day, was made by Mr. Sholes, emocrat, of Kenosha county, and sustained by a majority of the "democrats" in the Assembly. And the "Democratic Senate," which is to operate as a "check" on the "profligacy" of the House, themselves set the example of ordering sevral thousand copies of this identical Argus chart!

The Madison papers state that Gov. Farwell has directed a writ of quo warranto to be issued against the Wisconsin Marine and Fire Insurance Company and Blossom's Bank, at Milwaukee, and Richmond's Bank at Racine. This will test the authority of those institutions to exercise banking powers, and also test the capacity of the people to endure harder times than they now suffer. We wish a more fortunate senson had been adopted to try the experiment.—Janeville Gazette.

The "wish" expressed by our friends of the Sazette is the prevailing sentiment of our City and State. It is matter of very deep and general regret among our Merchants and Business men the this particular season should have been selected for preaching a new crusads against the Wisconsin Marine and Fire Insurance Company. Had the proceeding been delayed till the enactment of a General Banking Law by the Legislature and is sanction by the People, and had the Company cfused to organize under such law, few would have been found to consure the act of the State Authorities. But as few will be found to applaud

ANTI-MAINE LIQUOR LAW MEETING,-The proceedings of the meeting held at Military Hall. Vednesday evening, will be found in our columns his morning. The Free Democrat styles it an 'Auti-Temperance Meeting." It was, in fact, a neeting of those opposed, not to Temperance, bu to the enactment of the Maine Liquor Law in this State. The same paper, referring to Dr. Fesser's humorous petition to the Legislature, to prevent the immoderate use of cold water, says:-

It is a very amusing document and we hope it will be published in full. We presume if nobody drank any more cold water than its authors, such a law would occasion very little inconvenience. And we presume that the "authors" of this ocument drink just as much cold water and are quite as temperate as their assailants.

MUCH ADO ABOUT NOTHING .- Our very brief re ference to the public meeting at Military Hall, for the organization of a "democratic" club, is seized upon by the tetchy Commercial and held up to general reprobation, as if it were a heinous offence. We had no idea that the select few concerned in the movement were exempt from newspaper criticism, or that any allusions to them could movoke such a diatribe as the Commercial vents. Not only are we indignantly rebaked for picsuming to say anything on the subject ourselves but we are held responsible for the sentiments ex pressed by the Free Democrat. Really, we had no idea, or intention, by our passing notice of the "love-feast," to rouse such a commotion among their camp-followers.

THE COMPLIMENTARY CONCERT ON MONDAY.a Connect to be given on Monday evening. Young's Hall, is for the benefit of the two Musial Societies of our City. They have repeatedly volunteered their valuable services in aid of our Fire Department, the Orphan Asylum, and other useful and benevolent Institutions in our midst, and now that it is proposed in turn to give them a benefit, it ought to be a biomper. The large Hall will easily hold 1200 persons, and at least tertainment itself is worth double, or troble the admission price, and every one who buys a ticket will have the additional satisfaction of contributing his mite to the support of two most meritorious Societies. It will be an impeachment of the musical taste, liberality and sense of justice of our itizens if the Festival of Monday fails to draw an overflowing audience in Young's Musical Hall.

DEMOCRATIC MEETING .-- There were about one hundred persons present at the meeting held at the Military Hall, on Thursday evening, to form "Democratic Association." CHA'S JAMES, Presided; sundry gentlemen made short talks; committees were appointed to draft a plan of organiration, to report a platform, and to take action relative to the proposed "new deal" for Electors and Delegates; and then the meeting adjourned till this evening, at 8 o'clock. Upon the whole, the affair was essentially vapid. We hope the Commercial and Wisconsin will pump a little ore gas into the adjourned meeting, so as to have it go off with more spirit.

STICK A PINTHERM-The Madison Corresponlent of the Lake Journal writes that "great complaints are made of the delay in printing Reports and other public documents ordered by the Legislature, and the session will doubtless be protracted several weeks for this reason."

The Madison Arms bears witness to the same effect. We hope that these two papers will not, a month or so hence, charge all the delay complained of to Whig account.

TEMPERANCE MEETING. -- The meeting at Young's Hall on Thursday evening was numer onsly attended Gen. PAINE presided, and Her-BERT REED officiated as Secretary. Mr. Hastings and Dr. Machish made addresses; Mr. H. Reld offered a resolution in favor of the Maine Law in this State, which was adopted, and Mr. G. E. H DAY another one of thanks to the speakers, which was also carried. It was then moved to hold an adjourned meeting at the same place last evening. and the audience separated. The official record will be found in our columns.

The Sheboygan Lake Journal, commen The Sheotopgan Lake boarma, commenting upon the Legislative proceedings, says:—

The minimum price of school lands has been fixed at \$1,25 per acre. "Lock the stable door after the horse is stolen." The whigs could not "lock the stable door" any

oner, as the key was in possession of the opposite party. The Journal seems to be perfectly well a. me think so. ware who stole the horse.

THE IRISH EXILES.—We commend the straightorward letter of Mr. KREGAN, in our paper this morning, to the attentive perusal of our Irish felow-citizens and of our captious neighbor of the Commercial. Mr. KEEGAN drafted the resolutions. as originally offered, and concurred, with other friends of the object sought to be attained, in warm approval of Gov. FARWELL'S course.

The Commercial denies that it meant to ndorse Bishop O'Connon's Anti-Intervention letter, when it declared that it "would be viewed, by Catholics and Protestants alike, with tentiments f favor and approval." Pray what did it mean

Gov. Farwell and the Irish Exile Resolution

FORT WINNFBAGO, February 9, 1852. GEN. KING-Sir: I am very sorry to see the Commercial Advertiser and other Democratic papers, so carnestly working to misrepresent the course and the motives of Gov. Farwell's action | tion in good earnest. Having waited, I suppose, on the above resolutions; while they and the until they became satisfied that unless they do the public at large are, and have been entirely ignopublic at large are, and nave ocen entirety ignorant that he had been carnestly solicited by Irishmen and other friends of the Exiles, not to send among us a permanent school of the highest grade. The resolutions forward, until what was considered an objectionable clause had been stricken out. A few words will explain how the matter stood.ing illustration of its profound ignorance as to

During their passage through both Houses, they were the topic of considerable discussion by their enumeration that the number of females of suitafriends, both in and out of the Legislature. And ble age to be sent to school in this city, exceeds here I will state with pleasure, that in both houses there was not a single member, as far as I 300, are to receive a liberal education, beyond could see, who was not favorable to the object of what is offered by the public schools. If they are the resolution, and of their passage also, but some to be sent abroad for this purpose, the annual tax vished to prune what they deemed objectionable, and others to add what they considered necessary. Good or bad, I had my reasons for wishing the resolutions massed, as I at first drafted them, and found no difficulty in having the Senate strike out Mr. Sholes' free soil rider, which, by the way, was in itself as harmless as it was simple and unmeaning. After the resolutions came back from the Senate, and about balf an hour before being put on their passage, I was induced by some friend-not members-totry and have what was leemed objectionable \*tricken out. I accordingly went with that view to Judge Lewis, he being their introducer. He replied that they had already aken up considerable time, and that he saw nothing in them but what was strictly true, and that there was no fear whatever of their passage as re turned from the Senate. This was exactly what suited me, but others, altho' they appeared to gain to Milwaukee, in business and trade, of \$20, acquie-ce, were evidently dissatisfied. They were nmediately after put on their passage and passed 37 to 24. I saw their supported both in the Senate and

Assembly, as earnestly by whigs as by democrats and the only opposition of a partisan character they received, came from the Free Soilers, because they could not lug in their rider. But here I must do simple justice to Mr. Bennet, of Racine, who cordially and heartily supported the motion to strike out the resolution that was added by Mr. Sholes as being calculated to destroy the whole aim and object of the resolutions, without doing a particle or good to the cause which it pretended to advance. In 15 minutes after they were passed, and, as I thought, finally disposed of, I was on my way home, not having the remotest idea, that any attempt would be made, especially by Irishmen and friends of the object aimed at, to offer any fur ther opposition to the resolutions. This, however, was not so. Mr. Reynolds of this place and others waited on the Governor and wished him to send hem back, in order that what they considered objectionable might be stricken out. He did so in the course of three or four days. Whether Governor Farwell would have objected to the re-olu-tions as passed, if left to himself, I have no means of ascertaining, but I know that what he did was warmly approved of by the friends of the exiles He was told that while there was much anxiety to have them altered, there would be no objection anywhere; that even the man who drafted them, was auxious that they should be altered, and so expressed himself before he started for home. I have been told by Mr. Reynolds that his reply was:—" Gentlemen, I have seen the men. I was present at their trial in Cloumel; I then felt deeply for their cause, their country, and their sufferings, ind am as auxious as any man to obtain the object

on have in view." And this is the conduct for which he has been denounced with such would-be indignation, by the self appointed guardians and pseudo friends of Itishmen, as a "Native American," "a friend to England, and a foe to Ireland." Gentlemen of the Commercial Advertiser, and other kindled prints, be more moderate in your pretended fury against Sovernor Farwell, for what you call his hostility to Irishmen, and do not believe, or try to make others believe, that Irishmen are so deficient in ntelligènce or patriousm, as to be ready to oppose the Executive of the State for acting firmly and independently in the discharge of his duties, even though his action does not accord with our precise ban na wrang was done, or injury lative efiquette in sending back the resolutions at | be forwarded. the request of some of their friends, we are sorry

for it; but it is acting both silly and insulting to the following resolutions, which were unanimous us, to say that his action was prompted by enmity owards Iriehmen. Gentlemen, Politicians and Editors, the old game of appealing to us as Irishmen, will do no longer; we wish to be addressed, not as a distinct clan or class, but as men having no separate or distinct interests from the mass of our fellow-citizens, and if you pursue a different course, you'll find on the day of reckoning that you counted before the ballot boxes had been opened. We must have a "new deal." If you aim at obtaining the support of adopted citizens you must do so, not by finding out friends an cuemies for them, (that they'll take care of without you, being better judges, and more interested) but by proving that your men and messures are best calculated to promote the prosperity of our State and the safety and stability of our National Un-

As to the part of the Resolutions objected to by so many, viz, " with no shame or dishonor attached to their names: except what English taxomakes such, (that is the loving of their native land.") all allowed it to be strictly true, but doubted the poliny of saying so, especially, when asking a favor from England. I, on the contrary, thought it the very best policy, especially at the present time when she is making such hypocritical professions in the cause of freedom and humanity, towards the people of other countries, and calculating the rules of starvation and expatriation for her own, to let her know, what one of the sovereign states of America, (with which she is at present so anxious to form an alliance,) thought of her own

conduct in such matters. Bitter experience has dearly proved to Irishmen that English Justice, can neither see, feel, hear, taste, nor smell, as far as they are concerned while her interests, hopes, fears and capidity are quite assailable, in proportion to the emergency. That emergency has come. Tell her plainly, " You are a lyrant; "I can prove it" and she will think "I can't punish that fellow, and I need his good opinion, what shall I do to please him"? Let her read on the wings of the Press from all parts of the World, that she is accused by a free and sovereign state of condemning and punishing as FELons men who have neither stain or dishonor attached to their character, because they loved their native land; and when she steals the place of the pharisee of old, in lecturing the other nations of Europe about liberty and humanity. I want they should be able to reply "Doctor heal thyself," and hard her a certified copy of the Wisconsin Lish Exiles' Resolutions for her digestion; and her policy and interest will soon dispose of what her inside their onth and their sacred duty, not to bring upon themselves the claim, that they yielded to the clamor and stratagem of functional temperance men, and thereby declared, what we should doubly regret, that they doubted their own capacity for self-subsistence and self-government.

THE WHIGS OF MAINE FOR GENERAL SCOTT.

At Augusta, Me., on the 27th ult., the Whig embers of the Legislature held a meeting in ursuance of previous notice, at which there was i full attendance. The Committee appointed at previous meeting reported, and the meeting nanimously adopted the following resolutions:--1. Resolved, That upon the success of Whig principles and the ascendancy of the Whig party of this Union, depend in a very great degree the general welfare and the prosperity of our country. 2. Resolved, That to secure the success and

country.

2. Resolved, That to secure the success and accendancy of our principles and party, it is necessary that we become united and barmonious in the selection of our candidates for the Presidency and Vice Presidency at the approaching Presidential election.

3. Resolved, That, as the best method of securing union and harmony, of concentrating and giving force and expression to the sentiments of the masses of the Whig party upon this subject we are in favor of a Whig National Convention, by whose decision we are willing to abide, and to the candidates thus selected give a hearty support—and we would respectfully suggest the 17th day of June, the anniversary of the Battle of Bunker Hill, as the time, and the city of Philadelphia, as the place, for holding said Convention.

4. Resolved, That among the distinguished Whigs who have been named as candidates for the Presidency, we recognize that of Gen. Winfield Scott as our first hoice. Not unmindful of the high favor with which other candidates are justly regarded by some portions of our party, and fully appreciating their great talents and many virtues, we are nevertheless fully convinced that Gen. Scott has a hold upon the affections of the American people, and that there cluster around his name associations which will secure for him a more united, heavy and extended support than could be received by any other Whig candidate. has mane associations which will secure for this more united, hearty and extended support that could be received by any other Whig candidate With him for our leader, and his name for our watchword, we would feel confident of that success which has ever attended those who have rallied what his beauty of the control of the success which his beauty at the control of the success which his beauty at the control of the success which his beauty at the success when he have rallied when the success when he was the success which his beauty at the success when he was the success when the success which has ever attended the success when the success when the success which have a success when the success whe

5. Resolved, That as a candidate for the Vic

under his bannor.

5. Resolved, That as a candidate for the Vice Presidency, our preference is for James C. Jones, of Tennessee. Distinguished for his ability and integrity, a consistent and liberal Whig, one whom Tennessee has ever delighted to honor, his name carries with it not only an assurance of fitness for the office, but also a pre-tige of success not to be overlooked in a political campaign.

6. Resolved, That we present the names of Gen. Winfield Scott and James C. Jones as our preferred candidates for the Presidency and Vice Presidency for the favorable consideration of the Whig of the whole Union, subject to the decision of a National Convention. We present them as Whigs and patriots, whose past services and well established characters give us ample assurance that, if elected, they will discharge the duties of their respective offices in accordance with the provisions of the Constitution of the United States, with reference to the common good of the whole country, regurdless of all cliques and factions, and irrespective of all sectional divisions. We, therefore, do not desire from either of them any new pledges, and especially upon matters which are calculated to excite sectional prejudices without accomplishing any practical good purpose, either for the country or the Whig party. Prudence and spirit of conciliation on all such topics and issues. It is in this spirit that we, as Whigs of an extreme northern State, would meet and co-operate with our political brethren of the South, having full confidence that it will be cordially neciprocated by them, and that the Whigs of the whole Union will again become a united, enthusiastic and trumphant party. imphant party.

N. Y. Auction House,-Mr. J. Russell has ope ed a new Auction House, on the corner of East Water & Wisconsin-st., and will make liberal advances on all consignments, or on goods left in pledge. Mr. E. The Morning Chronicle says that the King of the Belgians, as the husband of the daughter of Louis Phillips, protests against the decree concerning the Orleans property and it is thought that similar protests will be made by Spain, Naples, the Brazils and Luxemburg.

ARRIVAL OF THE DANIEL WEBSTER. TWO WEEKS LATER FROM CALIFORNIA

### Indian difficulties Settled! New York, Feb. 13-3 P. M.

The steamship Daniel Webster arrived at her dock shortly before 11 o'clock to-day. She brings the fire originated; supposed to be the work of San Francisco papers to 17th of January, 111 passengers and \$70,000 in gold dust. The Webster arrived at San Juan on the 30th

ult. The steamer U. S. arrived there on the same day and left the following day for Chagres. The Webster left San Juan, February 5th at 2 P. M. bringing the advices by the Independence which left San Francisco at 4 P. M. of January 17th, and thus has been only twenty-six days and 15 hours between San Francisco and New York She passed on the 5th ult., an English Sloop of War, bound for San Juan.

San Juan was healthy-business dull. The market overstocked with all kinds of goods. On the night of the 4th instant, the most destructive conflagration occurred in the city of San Juan Nicaragua, by which one thousand buildings in the most populous section of the City, were destroy-Among those burned were the bildings know:

as the United States Hotel, owned by X. F. Mancasus, and the premises occupied by Messra S Shepard, Don Francisco and Company, besides a large number of other houses and stores. The City is not provided with Engines. A detachment of men from U.S. Sloop of War Albany were present and did good service with the Ship' Engine. Capt. Faddo, of the English Brig Success, was also present with his men, and it was chiefly through their extreme exertion that the fire was checked. The shipment of gold in January by the mail

### The Legislature. Gov. has Vetoed the R. R. U. V. R. R. Bill.

Mudison, Feb. 13.

The principal items of business of the Senate was the veto of the Governor on the bill to amend charter of Rock River Union Valley Railroad. The objections are partly constitutional. The bill embraces more than one subject, and the title does not express the object, and that it grants unconstitutional powers.

Also that it grants powers so extraordinary as to be centrary to public policy, allowing the com-pany to build from Beloit to Madison, from Janesville to Lake Superior, from the south line of the State to Wisconsin River, from thence to Willow River and from the Wisconsin River to Beaver

The impression is general that the objections are well taken and that the bill cannot pass. ASSEMBLY. Petitions de.

Ketchum & Comstock, HATTERS, 202 Main Street, Buffalo.

We would respectfully call the attention of our many friends, and the public generally, to an in-strument we have recently imported from Paris, called a from which the above cut was taken. By it we can take the exact shape, and unorringly it the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those, who take pleasure in witnessing the inventions of this curious instrument.

Having adopted the Cast Sik Hat made, at the extreme low price of \$1.25; surpassing any \$5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be, we invite all with do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see in.

The Directors feel grateful to the public for having thus early maint sed their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows: basines, show that our plan and management meets with the approval of the public.

The Charter and By-chaws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium motes in one shall not be liable for losses in the other. The only risks taken in the Fermer's Di partment are on name property, detacled duellers, country, churches, school houses, tailors's hoemakers, and cathers shopes. No hazardons risks will be tailen in either department, nor more il an \$2000 in one risk, or in a cittle defendant, nor more il an \$2000 in one risk, or in a cittle defendant, nor more il an \$2000 in one risk, or in a cittle defendant plan. Any person insturing may pay once and one half the regular cash premium in tall, without a premium mote. Stones may be added or changed, out-buildings and repairs made as do not merces the lazard, without notifying the company. The Company will be responsible for the corrections of surveys taken by their Agents. Instruance may take else of on the day the application is made. The rates tharged by this company, though low, are best dipon the actual results of insuring for the past twenty years, and are found to be subtilent, with prudent management to pay all losses and expenses without ere restor lay to the premium notes; thus the rates on exposed dwellings and farm projecty, are a premium not of one poeteral, and a cash premium of fifty cents on each \$100 for five years.

In publishing our safe, cheap, and popular plan of insurance, we deem it a duly to surrelies and the public to state a 5w ealsting faits with the Washington and Montgomery. Comery:—
The Washington County Mutual commenced in 1556, by collecting thirty cents on 540;; in 1848 they first discovered that this was manherent to pay loss as and rayed to 33 cents, and now are collecting to one on 1848; in 1850; the result of which is, by their report, Jan. 1850, \$9000 in the trustury, and 65 million at rids, on which they will propagate two hundred thousand, making their actual debt 191 thousand.

The Montemers County Mutual is problem.
